

# POL-DRUT SP. Z O.O.

## Quality Policy

The overriding goal of POL-DRUT Sp. z o.o. is to ensure the highest level of quality of services and products provided while maintaining legal and market conditions and customer requirements. We will strive to continuously improve the quality management system and undertake to meet the requirements of the Quality Management System ISO 9001 and EN-1090, ISO 3834.

The scope of activity is the production of wire elements for household appliances, shop equipment, gardens, and in particular baskets and shelves for the refrigeration industry and storage systems:

- maintaining a high level of quality of work and services, which is the main goal of the activities of all employees at all organizational levels;
- all staff are aware of their role in shaping quality and their responsibility in this area;
- improving the methods of performing the service and product;
- conducting strict supervision over the course and performance of the service and product;
- all employees are systematically trained in the requirements arising from the application of the quality assurance system in the company.

The company implements its quality policy through a creative approach to quality management, with particular emphasis on:

- promotion of quality awareness
- culture of quality
- universal active employee participation
- qualitative motivation

POL- DRUT Sp. z o.o. identifies interested parties, analyzes external factors influencing the company's functioning and assesses risks and opportunities related to the company's activities.

The established, accepted and communicated Quality Policy obliges all employees to consciously implement the established quality goals and tasks, meet the requirements and continuously improve the quality management system. Employees are aware that only individual responsibility for the quality of the work they perform and full identification with the company's policy guarantee the achievement of the established goals.
